

Education

-
- Georgia Institute of Technology** Atlanta, GA
 - Master of Science in Computer Science: Human-Computer Interaction* Jan 2022 – May 2026
 - Bachelor of Science in Computer Science: People & Intelligence, Dean's List* Aug 2017 – Dec 2020
 - Teaching Assistant - CS 7470/4605 Mobile & Ubiquitous Computing

Skills

-
- Languages:** Java (Proficient), Kotlin (Proficient), Python, Typescript, Javascript
 - Technologies:** LLMs (Claude, ChatGPT, Kimi, DeepSeek), Agentic Workflows, Prompt Engineering, RAG, AWS (Bedrock, AgentCore, Redshift, DynamoDB, S3, Elasticsearch/OpenSearch, Kinesis, Lambda, ECS, EMR, IoT, Cognito, Athena, SES, SNS, SQS, EventBridge, Connect, IAM, CDK), Firebase (Authentication, Firestore, Storage, Cloud Messaging, Cloud Functions, ML Kit), Android, Flutter, React, Espresso, Mockito, OkHttp + Retrofit, Git, JIRA, TeamCity
 - Concepts:** Object-oriented programming, mobile development, MVC, MVP, MVVM, Agile, Scrum, QA
 - Certifications:** GCP Big Data and Machine Learning Fundamentals, GCP Fundamentals: Core Infrastructure

Experience

-
- Amazon** Bellevue, WA
 - Last Mile - Software Development Engineer II* Jul 2022 – Present
 - Amazon** Bellevue, WA
 - Last Mile - Software Development Engineer I* Feb 2021 – Jul 2022
 - Amazon** Seattle, WA
 - Amazon Redshift - Software Development Engineer Intern* May 2020 – July 2020
 - Developed Simple Replay V2, an open source tool for replaying data warehouse workloads using Python.
 - Amazon** Seattle, WA
 - Amazon's Choice - Software Development Engineer Intern* May 2019 – Aug 2019
 - Shipped code to amazon.com, significantly impacting purchasing metrics.
 - National Cash Register** Atlanta, GA
 - Silver & Innovation Lab Software Development Engineer Intern* May 2018 – Dec 2018
 - Overhauled Android app UI and introduced new hardware support.
 - Integrated Kotlin Multiplatform to eliminate duplicate Android and iOS code.
 - Introduced instrumentation tests by implementing Espresso and UI Automator, integrating them into CI.

Miscellaneous

-
- Theory** https://theoryiot.com
 - Co-Founder & CEO* Sep 2017 – Nov 2020
 - Responsible for mobile and web apps in Flutter, Alexa and Google Assistant integrations in Node.js, all things backend and AWS (IoT, Cognito, DynamoDB, API Gateway, IAM), CAD, contractors, and legal matters.

Other

-
- Publications (First author)**
 - Human-Computer Interaction*
 - ISWC '21:** Typing on Tap: Estimating a Finger-Worn One Handed Chording Keyboard's Text Entry Rate.
<https://dl.acm.org/doi/10.1145/3460421.3480428>
 - ISWC '20:** Conversational greeting detection using captioning on head worn displays versus smartphones.
<https://dl.acm.org/doi/10.1145/3410531.3414293>
 - MobileHCI '20:** Towards an Understanding of Real-time Captioning on Head-worn Displays.
<https://dl.acm.org/doi/10.1145/3406324.3410543>
